- 2. Share costs up to \$6, 000 with the City of Homewood for an Apple grant study of the bridge on Hollywood Blvd over Hwy 280-Alice Womack**
- 3. Executive Session**

November 10, 2016

Dear City Council,

This is to update you on the restroom that the Park Board would like to place at Mountain Brook Elementary. We have made some progress since the last council meeting where you agreed to hold off on the pre-fabricated restroom.

James Carter came up with a new design for the restroom. It pretty much has the same floor plan, but will have rock walls and a slate roof. It will be located in the open area, by the bench, but will be facing Cahaba Road. The doors are designed to face each other in an entry way so they will not be visible from the street. There is one door for the janitor's closet that can be seen, but it will be an attractive door that fits the look of the rest of the building. By facing Cahaba Road, we will be able to connect it to the existing sidewalk and meet ADA regulations. The plans and picture of the location are included at the end of this letter.

The design has been approved by the garden club, the Park Board, and the Planning Commission. I believe the Board of Education is also in favor of it. I will check with them by Monday's meeting. We have had several comments from random residents in favor of the restroom.

The estimated cost of this restroom is \$160,000, which is more than the \$100,000 budgeted for the pre-fabricated restroom. The garden club and another small group that includes James Carter, Sally Legg, and Norman Johnson will be trying to raise enough funds to cover the difference. They already have a donor for the slate roof and a pledge of \$500. They would like for us to go ahead with the bidding process so they know how exactly how much money is needed.

If you have any questions, please let me know. I plan to be at Monday's meeting.

Sincerely,

Shanda Williams
