Restroom and Scoreboard at Mountain Brook Elementary Field

To Whom It May Concern:

The Park Board would like to install a pre-fabricated restroom near the field at Mountain Brook Elementary. This restroom will be similar to the ones at Brookwood Forest Elementary and Overton Park except that it will have two handicap accessible restrooms. It will be 10' x 18' which includes a small 2 foot porch on the front. It will be 10' tall at the apex of the roof. A photo and plans of the restroom have been included with this request.

The Park Board would also like to install a scoreboard near the restroom. This will be similar to the scoreboards located at Crestline Elementary and each baseball field at the Sports Complex. I believe these are approximately 4' x 8'. A photo of an existing scoreboard is included on the next page. These projects will be installed close together so the electricity can easily be connected from the restroom to the scoreboard.

After the last Planning Commission meeting we found out the location by the batting cages was in the Flood Way where we are unable to build. We had a surveyor come out and help us find a location that would work and that is in the corner of Heathermoor Road and Cahaba Road. It will be approximately 5 foot inside the existing sidewalk that runs parallel with Cahaba Road and approximately 10-12 foot to the outside of the sidewalk that runs along Heathermoor. Photos of the stakes marking the location are included. The string represents how high the restroom will have to be. It will almost be equal to the sidewalk that runs along Cahaba Road and be 19- 24 inches higher than the ground now on the side facing the field. We will have to make the porch 3 foot wider and add a ramp to make it ADA accessible.

We will request a darker brown color than what is pictured in the photo of the restroom and we will landscape around it to help screen it from the road.

This location will also make connecting to the utilities cheaper. It will be closer to a sewer connection, power connection, and water connection.

The scoreboard will be mounted on the existing field light pole across the sidewalk from the restroom. It will still face the field away from traffic.

Because of the cost of the restroom alone, the project will have to be bid out. If everything goes smoothly, we hope to get it installed this summer while school is out. Then the scoreboard can be used for football this Fall.

If you have any questions, please contact me at 802-3879 or at williamssh@mtnbrook.org.

Sincerely,

Shanda Williams
Superintendent of Parks and Recreation

This is a photo of the restroom. We can choose a different color wall and roof.

This is a similar scoreboard at the Complex

The plan above does not include the porch. The plans below do.
