

**ORDINANCE NO. 1962 - AN ORDINANCE TO REPEAL ORDINANCE NO. 1693 AND TO PROHIBIT SMOKING IN CERTAIN ENCLOSED PLACES AND CERTAIN OUTDOOR PUBLIC PLACES IN THE CITY**

WHEREAS, the City Council of the City of Mountain Brook, Alabama is aware that studies show that (1) second-hand smoke exposure can cause disease and premature death in children and adults who do not smoke; (2) children exposed to second-hand smoke are at an increased risk for sudden infant death syndrome (SIDS), acute respiratory problems, ear infections, and asthma attacks; (3) even occasional exposure of adults to second-hand smoke can have immediate adverse effects on the cardiovascular system and can cause coronary heart disease and lung cancer; (4) there is no risk-free level of exposure to second-hand smoke; (5) establishing smoke-free public places and places of employment are the only effective ways to ensure that second-hand smoke exposure does not occur in such places because ventilation and other air cleaning technologies cannot completely control exposure of non-smokers to second-hand smoke; and (6) evidence from peer-reviewed studies shows that smoke-free policies and laws do not have an adverse economic impact on the hospitality industry;

WHEREAS, the Council is aware that studies have shown that (1) residual tobacco contamination, or "third-hand smoke," from cigarettes, cigars, and other tobacco products is left behind after smoking occurs and builds up on surfaces and furnishings; (2) tobacco residue can linger in spaces long after smoking has ceased and continue to expose people to tobacco toxins; (3) sticky, highly toxic particulate matter, including nicotine, can cling to walls and ceilings; (4) gases can be absorbed into carpets, draperies, and other upholsteries, and then be reemitted (off-gassed) back into the air and recombine to form harmful compounds; and (5) even the rapid absorption and persistence of high levels of residual nicotine from tobacco smoke on indoor surfaces, including clothing and human skin, exposure to "third-hand smoke" can represent an unappreciated health hazard through dermal exposure, dust inhalation, and ingestion;

WHEREAS, the Council finds that unregulated electronic smoking devices, commonly referred to as electronic cigarettes, or "e-cigarettes," closely resemble and purposefully mimic the act of smoking by having users inhale vaporized liquid nicotine created by heat through an electronic ignition system, and that their use in workplaces and public places where smoking of traditional tobacco products is prohibited creates concern and confusion and leads to difficulties in enforcing the smoking prohibitions;

WHEREAS, the City Council of the City of Mountain Brook, Alabama is concerned about the health hazards induced by breathing second-hand smoke which include lung cancer, heart disease, respiratory infection, and decreased respiratory function, including bronchospasm;

WHEREAS, the City Council of the City of Mountain Brook, Alabama finds and declares that the purposes of this ordinance are (1) to protect the public health and welfare by prohibiting smoking in certain enclosed public places, enclosed places of employment, and certain outdoor public places; (2) to regulate the use of electronic smoking devices like other traditional forms of smoking; (3) to promote the right of non-smokers to breathe smoke-free air, and to recognize that the need to breathe smoke-free air shall have priority in certain places over the desire to smoke; and (4) reasonably balance the interests and rights of all its citizens regarding smoking in certain public places.
