This remedy is in addition to any other provided in the Agreement or available to City under law or in equity.

   Contractor's obligations herein shall survive the termination or expiration of the Term for these periods: Section 6(f) (Warranty on workmanship and materials) for one year following Project acceptance; other warranties in Section 6 for a period of one year, and Section 7(c) (Indemnification) for a period of two (2) years.
5. **Contract Price/Invoice/Certification.** Unless otherwise stated in the Special Conditions on Exhibit A or agreed in a writing signed by the parties, City will pay Contractor the lump sum amount of Ten thousand nine hundred and eighty-seven dollars ($10,987.00) as compensation for performing the Work (the “Contract Price”). Unless agreed in a writing signed by duly authorized representatives of both parties, the total amount payable to the Contractor for the Work shall not exceed the Contract Price (and agreed sum(s) payable for any Additional Operations contemplated on Exhibit A). **In no event will the total amount paid to Contractor for its Work (including the Contract Price or any amount paid for Additional Operations) exceed $50,000.00.**

The City will pay the Contract Price on this Project after the completion of Work.

Within ten (10) days following the successful completion of the Project, Contractor will submit to City Project Representative an invoice for the Contract Price (as adjusted by any mutually agreed change orders signed by both parties). With such invoice Contractor shall submit records reasonably supporting its payment. Within five (5) days following receipt of that invoice, City Project Representative will review same, consult with Contractor and make any mutually agreed modifications to it, certify that the invoice is due to be paid, and forward that certified invoice to the City Clerk. The City Clerk will remit to the Contractor the amount certified for payment within twenty (20) days after it receives that certification.

6. **Warranties of Contractor.** The Contractor warrants each of the following with respect to its Work:

(a) that it expeditiously will perform its Work in a good and workmanlike manner that is consistent with level of skill and care that would be provided by other contractors performing operations under the same or similar conditions, and in accordance with the Project schedule;

(b) that it, and all of its employees or any subcontractors (if authorized), will complete the Work in compliance with all codes, laws and regulations that are applicable to the Project;

(c) that before commencing the Work, at its own expense, the Contractor will obtain all licenses, permits or other governmental authorizations needed to complete the Project, including without limitation, a business license and building permit issued by the City (collectively, “Licensing”). Contractor further agrees to maintain that Licensing throughout the performance of the Project;

(d) that it has inspected the Site and any other locations at which it will perform the Work, and, based on that inspection and its expertise, that it has determined that each of those locations is reasonably suitable for Contractor to complete the Work;
(e) that the Contractor shall be responsible to remove and properly dispose of any debris related to its completion of the Project, and that it will leave each location where the Work is performed in reasonably clean condition;

(f) that the Work will be free of any material defects in workmanship and materials for a period of one (1) year that shall commence on the date of acceptance of the Project; and

(g) that all actions required to be taken by or on behalf of the Contractor to enter or execute this Agreement, and to perform its obligations and agreements hereunder, have been duly taken, and the person signing below on behalf of Contractor is authorized to execute this Agreement.

7. **Insurance/Safety/Indemnification.**

(a) Insurance. For the duration of this Agreement and for limits not less than stated below, Contractor, at its sole expense, shall maintain the following insurance with a company(ies) lawfully authorized to do business in Alabama and reasonably acceptable to City:

(i) Comprehensive General Liability: Seven Hundred Fifty Thousand Dollars ($750,000.00), combined single limit and aggregate for bodily injury and property damage. This Comprehensive General Liability policy shall include coverage for premises/operations, products/completed operations, assumed contractual obligations, independent contractors, and broad form property damage;

(ii) Automobile Liability: Automobile Liability covering owned and rented vehicles operated with policy limits of not less than Seven Hundred Fifty Thousand Dollars ($750,000.00) combined single limit and aggregate for bodily injury and property damage;

(iii) Workers Compensation/Employer’s Liability: Workers’ Compensation as required by statute and Employer’s Liability with limits of Five Hundred Thousand Dollars ($500,000) per occurrence.

The Contractor may satisfy its insurance obligations hereunder through a combination of primary, umbrella and excess policies. Before the execution of this Agreement, the Contractor shall provide City a certificate(s) of insurance evidencing compliance with the requirements in this section. The certificate shall name City as an additional insured on the Comprehensive General Liability, Automobile Liability, and any applicable umbrella and excess policies.

The City will not furnish any type, form, coverage or amount of insurance in connection with the Project.
(b). Safety. Contractor agrees that it (a) has the sole responsibility to identify any condition or hazard at the Site or other locations on City property that will prevent it from safely performing the Work, and (b) is exclusively responsible for performing the Work in a safe manner that does not put at risk the safety of persons or endanger property. Contractor shall take all reasonable precautions for the safety of, and shall provide all reasonable protection to prevent damage, injury or loss to: (i) its employees and all other persons who may be affected by the Work; (ii) all the Work and all materials and equipment to be incorporated therein, whether in storage on or off the Site, or under the care, custody or control of the Contractor or any of its representatives; and (iii) other property at the Work Site or adjacent thereto.

(c). Indemnification. Contractor agrees to defend, indemnify, and hold harmless City and its agents, employees and officials (hereinafter collectively, the “Indemnitees”) from and against all demands, actions, liabilities, expenses (including reasonable attorney’s fees) or claims for damages by any third parties (including any employee, subcontractor or representative of the Contractor, hereafter a “Contractor Representative”) that arise out of, relate to or are caused by any negligent act, omission or conduct by Contractor or any Contractor Representative in performing or failing to perform the Work or its (or their) responsibilities under this Agreement; provided that nothing herein shall oblige the Contractor to indemnify any of the Indemnitees for any claims resulting from the negligent conduct or the willful misconduct of the Indemnitees.

The City will not indemnify Contractor (or any of its representatives or authorized subcontractors) for any claims that relate to or arise out of the Project.

(d). Limitation of Liability. In no event may Contractor recover from the City any special, incidental, consequential or any other indirect damages whatsoever of any description (including, without limitation, damages for lost profits, lost advantage, lost opportunity, loss of savings or revenues or for increased cost of operations) or amount arising from the City’s breach of its obligations hereunder.

8. Project Representative. Each Party shall appoint and indicate on Exhibit A its representative who shall coordinate with the other Party on all matters related to the performance of the Work and the administration of this Agreement (the “Project Representative”). Any notice required hereunder shall be sufficiently given when sent to the appropriate Project Representative via United States certified mail, return receipt requested, or via overnight courier with receipt verification to the address set forth herein, or by personally delivering such notice to the party to be in receipt thereof.

a. This Agreement which is comprised of this instrument, the City Scope of Work and the July 17, 2019 Contractor Proposal (collectively, the “Contract Documents”) sets forth the entire understanding between the Parties concerning the matters herein, and all
oral representations, prior negotiations, understandings, agreements, conditions, and terms discussed between them prior to acceptance and signing of this Agreement are deemed to have merged herein. In the event of any conflict or inconsistency between provisions in the various Contract Documents, the provision(s) in the document in the order below shall control and take precedence: (1) this Agreement; (2) the City Scope of Work; and (3) the Contractor Proposal.

b. This Agreement may be executed in counterparts each of which when executed by the Parties shall be deemed to be a complete original. An electronic or facsimile copy of the executed contract or counterpart shall be deemed, and shall have the same legal force and effect as, an original document.

c. Any forbearance or delay on the part of City in enforcing any of its rights under this Agreement shall not be construed as a waiver of such rights. No terms of this Agreement shall be waived unless expressly waived in writing.

d. Contractor may not assign its rights, obligations or the benefits of this Agreement to any third party without the written consent of City, which consent may be withheld for any reason.

e. This Agreement is made only for the benefit of the Parties. It is not intended, nor shall it be construed, to grant or bestow any benefit, right or privilege to any third party.

f. Contractor is an independent contractor of City. This Agreement does not create any partnership, joint venture or principal-agent relationship between the Parties. Further, City retains no control or authority with respect to its means and methods in which Contractor (or any of its employees or representatives) performs the Work.

h. Immigration Law Compliance. Contractor represents and warrants to the City that: (i) it does not knowingly employ, hire for employment, or continue to employ, in Alabama, an “unauthorized alien,” as defined by the Beason-Hammon Alabama Taxpayer and Citizen Protection Act, §31-13-1, et seq., Code of Alabama 1975, as amended (the “Act”); (ii) it will enroll in the E-Verify program prior to performing any work on the Project in Alabama and shall provide documentation establishing that it is enrolled in the E-Verify program. During the performance of this Agreement, the Contractor shall participate in the E-Verify program as required under the terms of the Act and shall verify every employee in Alabama that is required to be verified according to the applicable federal rules and regulations; (iii) it will comply with all applicable provisions of the Act with respect to subcontractors, if any, that it engages on the Project by entering into an agreement with or by obtaining an affidavit from such subcontractors providing work on the Project in Alabama that such subcontractors are in compliance with the Act with respect to their participation in the E-verify program. Contractor further represents and warrants that it shall not hire, retain or contract with any subcontractor to work on the Project in Alabama which it knows is not in compliance with the Act; and (iv) by signing this Agreement, it affirms, for the duration of the
Agreement, that it will not violate federal immigration law or knowingly employ, hire for employment, or continue to employ an unauthorized alien within the State of Alabama. Furthermore, if Contractor is found to be in violation of this provision, it shall be deemed in breach of the Agreement and shall be responsible for all damages resulting therefrom.

i. **Amendment.** Neither this Agreement nor any of the provisions herein (including, without limitation, those concerning the Scope, Project Schedule and Contract Price) may be amended or modified except in accordance with the terms of a written instrument (or change order) signed by both Parties.

j. **Delayed Performance/Force Majeure Events.** Neither Party shall be liable to the other for any failure to perform its respective obligations (including payment obligations) under this Agreement during any period in which its performance is delayed by circumstances beyond its reasonable control, such as fire, flood, war, embargo, strike, riot, or the intervention of any governmental authority (a "Force Majeure Event"). However, the delayed Party must promptly provide the other with written notice of the Force Majeure Event, the delayed Party's time for performance will be excused only for the duration of that Event, and, if that Event lasts longer than 30 days, then the other Party may immediately terminate, in whole or in part, this Agreement by giving written notice to the delayed Party.

k. This Agreement shall be governed by, and construed in accordance with, the laws of the State of Alabama.

The City of Mountain Brook is creating a new dog park at Cahaba River Walk, 3503 Overton Road.

We need a 5 ft tall, 8 gauge, black chain link fence installed for the perimeter of the dog park. The photo below shows the general layout of the fence in green. We have marked the park with white paint if you would like to visit the park to evaluate the terrain, take measurements, and be aware of all visible obstacles. I will be glad to meet with you there. There are some stretches of the fence that will curve with the trail, some that need to avoid trees, and some sections that are not level. We need the bottom of the fence to be flush with the ground or buried a few inches depending on the terrain and tension wire along the bottom for extra support in preventing dogs from getting out under the fence.

We will need 2 vehicle access gates- 12' wide (2-6ft gates) (Hash marks on the photo)
We will need 1 double gate entrances- 8 ft x 8 ft (Solid green square on the photo)
The 4 ft gates on these should be offset from each other.

Line posts should be 2” diameter
End posts and gate posts should be 3” diameter
Top rails should be 1 5/8” diameter
All should be at least schedule 40.

I have the total perimeter estimated to measure 616 ft including the gates. The other 3 sides of the double gated area will add another 24 ft, including the 4 ft gates.

Subject: Dog Park Fence contract

I have attached all the documents needed for the dog park contract.

The price is $10,987 which is $987 over what we had originally estimated.

The fence supply company went up on their prices.

The other cheaper quote was for $11,575.

These two started out over $13,000, but I took out some items to get the price down.

One other quote was for over $20,000!! I don’t think they wanted the job.

The bid opening for the retaining walls is tomorrow at 2pm.
I won’t have that contract information ready until after that, possibly Friday depending on how involved the decision process will be.

Bridge Donation on Watkins Trace Trail

Mr. Harlan Prater IV had approached us about donating a bench in honor of his ailing wife’s caregivers on Watkins Trail. They would walk with her along the trail when she was able to get out of the house. Sadly, she is no longer able to walk the trail as she once loved to do. I met with Mr. Prater and Nimrod Long at the trail to discuss what options were available since we were out of obvious locations for benches.

I suggested replacing the flat bridge that sits over a ditch at the beginning of the trail off of Watkins Road because we have had to make repairs on it and it is a little narrower than the trail. We all agreed that a new bridge is needed and Nimrod made suggestions on how to make it better. Mr. Prater requested that the bridge be made to last much longer than a regular wooden bridge.

Nimrod has been handling the design of the bridge and landscaping to go with it. It is proposed to be a slightly arched bridge with cortin steel joists and rails. The decking will be made out of Ipe Wood, which is the longest lasting natural wood made and is used on the picnic tables located at the middle of Jemison Park. The look will be consistent with the other steel bridges, but scaled down to approximately 22 feet. Below is a sketch of the bridge that will be made by Marbury McCullough (TCC).

Along with the bridge, Nimrod suggested adding decorative rocks under it and dressing up the whole area. There is also discussion of placing the bridge to the left of the bridge as it is pictured below. This will move the trail away from the house that is in the background of the picture.

Mr. Prater, his daughter Florence, and Nimrod Long will be present at our meeting to discuss the plans.

This is the existing bridge and a sketch of the new bridge.
Bridge on Watkins Trace Trail

July 2019

The City of Mountain Brook would like to replace a small wooden bridge with a sturdier steel bridge. The bridge is located in Jemison Park on Watkins Trace Trail, about 150 feet from Watkins Road.

The new bridge will be slightly arched and made with cortin steel joists and rails. The decking will be made out of Ipe Wood, which is the longest lasting natural wood made and is used on the picnic tables located at the middle of Jemison Park. The look will be consistent with the other steel bridges in Jemison Park, but scaled down to approximately 22 feet. Below is a sketch of the proposed bridge.

The new bridge will be placed approximately 20 feet to the left side of the wooden bridge as it is pictured below. This will allow the trail to remain open during the construction process. Moving the trail over some will give a better buffer between the trail and the neighbors.

The area around the bridge will be landscaped to include rerouting the trail and improving the aesthetics of the ditch with rocks.

This is the existing bridge and a sketch of the new bridge.

3. Undertaking of Parties. Contractor agrees to perform the Work in accordance with the terms, conditions and specification in this Agreement and on Exhibit A. City agrees to compensate Contractor and perform its other responsibilities set forth in the Contract Documents.

4. Term/Termination. The term of this Agreement shall commence on the Effective Date and thereafter continue in effect for six (6) months (the “Term”). The period in which Contractor will complete the Project is set forth on Exhibit A.

The failure of the Contractor to timely perform the Work shall be considered an event of Default. This remedy is in addition to any other provided in the Agreement or available to City under law or in equity.

Contractor’s obligations herein shall survive the termination or expiration of the Term for these periods: Section 6(f) (Warranty on workmanship and materials) for one year following Project acceptance; other warranties in Section 6 for a period of one year, and Section 7(c) (Indemnification) for a period of two (2) years.

(b) The balance of the Contract Price after the following certification of completion of Work.

Within ten (10) days following the successful completion of the Project, Contractor will submit to City Project Representative an invoice for the Contract Price (as adjusted by any mutually agreed change orders signed by both parties). With such invoice Contractor shall submit records reasonably supporting its payment. Within five (5) days following receipt of that invoice, City Project Representative will review same, consult with Contractor and make any mutually agreed modifications to it, certify that the invoice is due to be paid, and forward that certified invoice to the City Clerk. The City Clerk will remit to the Contractor the amount certified for payment within twenty (20) days after it receives that certification.

6. **Warranties of Contractor.** The Contractor warrants each of the following with respect to its Work:

(a) that it expeditiously will perform its Work in a good and workmanlike manner that is consistent with level of skill and care that would be provided by other contractors performing operations under the same or similar conditions, and in accordance with the Project schedule;

(b) that it, and all of its employees or any subcontractors (if authorized), will complete the Work in compliance with all codes, laws and regulations that are applicable to the Project;

(c) that before commencing the Work, at its own expense, the Contractor will obtain all licenses, permits or other governmental authorizations needed to complete the Project, including without limitation, a business license and building permit issued by the City (collectively, "Licensing"). Contractor further agrees to maintain that Licensing throughout the performance of the Project;
(d) that it has inspected the Site and any other locations at which it will perform the Work, and, based on that inspection and its expertise, that it has determined that each of those locations is reasonably suitable for Contractor to complete the Work;

(e) that the Contractor shall be responsible to remove and properly dispose of any debris related to its completion of the Project, and that it will leave each location where the Work is performed in reasonably clean condition;
