### **PUBLIC ANNOUNCEMENT: Canterbury Road Temporary Closure Date Extended**

To whom it may concern:

This is an update to the public announcement dated July 12, 2017 regarding the temporary closure on Canterbury Road from Cahaba Road to Village Circle. As previously stated, the closure of Canterbury Road was recommended as part of the traffic analysis performed in conjunction with the proposed roundabouts as Cahaba Road/Lane Park Road/US-280 Ramps and Cahaba Road/Culver Road. A temporary closure was pursued to assess whether the closure will reduce traffic queues from the proposed roundabout areas. The temporary closure was initially planned to remain in place until September 30, 2017; however, the closure will be extended to at least January 9, 2018. This extension is attributed to recent closures/detours on Lane Park Road and Overhill Road.

Upon completion of the Lane Park Road and Overhill Road closures/detours, traffic counts will be collected and the traffic signals at the intersections of Cahaba Road at Montevallo Road, Cahaba Road at Culver Road (South), and Montevallo Road at Culver Road will be retimed.

If the traffic remains acceptable with the temporary closure in place, we MAY proceed with making this closure permanent. If the evaluation finds the traffic operation to be unacceptable, we will assess other options.

If you have any questions or concerns, please contact the City Manager, Sam Gaston, at 205-802-3803 or [gastons@mtnbrook.org](mailto:gastons@mtnbrook.org).
