

# A PUBLIC NOTICE FROM ALABAMA POWER

## TREE CREWS WORKING IN MOUNTAIN BROOK THROUGH EARLY 2018

Alabama Power crews are working in several Mountain Brook neighborhoods, removing trees and other vegetation that threaten the safety and reliability of our electrical system.

As part of this process, Alabama Power goes to great lengths to talk with individual property owners. Company representatives are going door to door, leaving notices at locations where work is needed.

If you have any questions before crews come by your home, please call Alabama Power at 205-257-2155 and ask for someone in the Vegetation Management Group to contact you. Or you can email us at [apcvm@southernco.com](mailto:apcvm@southernco.com). Work in Mountain Brook and nearby areas is expected to continue through early 2018.

Also, you can visit [alpwr.co/vm](http://alpwr.co/vm) for more information about these safety and reliability measures and for recommendations about planting the right tree in the right place.

**Thank you for your understanding.**
